University Partnership in National Premiere

"Since my first visit to Romania in 2013 and the foundation of the subsidiary in 2014, it's been a privilege to witness and support the development of MHP Consulting Romania. I'm proud to have contributed to this journey and grateful for the enduring collaboration with our partners. As we mark the tenth anniversary of our Romanian subsidiary, I'm struck by the remarkable progress we've made together. Romania has become our largest subsidiary, showcasing consistent growth, and attracting top talent. Our partnership with the University of Babeş-Bolyai has enabled us to inspire young minds in IT. Romania is pivotal in MHP's strategic landscape, and I'm excited to continue our success story together," declares Marc Zimmermann, CFO of MHP.

In February 2014, MHP Consulting Romania, alongside Porsche AG and NTT Data Romania, co-founded the German-Language Computer Science Study Program at the Faculty of Mathematics and Computer Science, Babeş-Bolyai University in Cluj-Napoca, the first program of its kind in Romania. This initiative was further complemented in 2018 with the Advanced Computer Science Systems Master's Program: Modeling, Design and Development, and in 2022, with two additional German-language study programs at the Faculty of Economics and Business Administration (UBB) – Business Administration and International Management.

The story of MHP - A Porsche Company continues in Romania. The company remains faithful to the same core values that have been at its core since its inception: excellence and innovation in technology centered around an exceptional team.
